

Initiatives in Strengthening Acquisition

SYNOPSIS:

Ms. Rebecca Davies and Mr. Fred Meyer

Did you know? During the 2000-2008 timeframe there have been 836 protests of AF contract award decisions which resulted in only 29 (~3%) sustained protests and 273 (~32%) corrective actions.

In 2009 the Air Force released its “Acquisition Improvement Plan” (AIP), which focuses our efforts for the critical work of modernizing and recapitalizing our air, space and cyber systems

The AIP builds on lessons learned from past shortfalls in our procurement processes; but more importantly, it establishes goals and actions that ensure rigor, reliability and transparency across the Air Force acquisition enterprise.

AIP’s five initiatives: Revitalize Acquisition Workforce, Improve Requirements, Budget/Finance Discipline, Improve Source Selection and Acquisition Organization
