

Peg Drummond CEO – www.SuperTeams.com

For the last 18 years Peg Drummond has studied and trained thousands of Leaders in both the Military and Private Industry. She has consistently found the quality of the average meeting in an organization to be two things at once:

- An enormous time waster (remember the last really lousy meeting you had to sit through?)
- AND a Key Indicator of Team Performance - the technical side AND the people side are often out of balance - and the root cause of why projects fail.

What Peg has learned from her experience is this ...

The qualities of Exceptional Leadership **are the same qualities** of an Effective Meeting Facilitator:

- Showing up Prepared and Confident
- Knowing your Session Objective
- Respectfully managing dysfunctional behavior – at any level in your organization
- Keeping the group on track and focused
- Asking Strategic questions to gather information – (and when to ask them)
- Inspiring and motivating your team
- Gaining commitment and catalyzing action
- Building trust and loyalty

With her flagship course “**SUPER MEETINGS 2-Day Leadership and Facilitation Intensive**”, Peg uses simple and powerful ideas, combined with the science of Accelerated Learning Theory, to give Leaders the PEOPLE TOOLS they need to become more Confident and Effective with their Teams.

Super Meetings has been delivered to thousands of team leaders across the globe in Fortune 100 and 500 companies and every branch of the United States Military.

Super Meetings is an integral component of the U.S. Navy’s NAVSEA LEAN/Six Sigma College Black Belt Certification Program.

Peg is respected and known for her focus, high energy and ability to get the work done while keeping teams focused, productive, and having a good time as well.

97% of Peg’s participants rate her trainings as either “**the best**” or “**one of the best**” they have ever attended in their life.”
